EDUCATION

Federal Polytechnic Ilaro	**Oct. 2021 – Jan. 2024**
Higher National Diploma of Science in Computer Science CGPA 3.58/4.0	*Ilaro, Ogun State*
Federal Polytechnic Ilaro	**Sep. 2018 – Dec. 2020**
National Diploma of Science in Computer Science CGPA 3.46/4.0	*Ilaro, Ogun State*

RELEVANT COURSEWORK

- Data Structures & Algorithm
- Computer Architecture
- Systems Programming
- Artificial Intelligence
- Database Management
- Data Communication & Networks

EXPERIENCE

Data Scientists Network   **Dec. 2022 – Dec. 2023**
AI/ML Student Lead   *Federal Polytechnic Ilaro*
- Organizing academic programs and classes, fostering collaboration among faculty, researchers, and students.

Programmers' Hub   **Dec. 2022 – Nov. 2023**
Software Developer   *Ilaro, Ogun State*
- Designs, codes, tests, and maintains software applications in collaboration with cross-functional teams to achieve efficient and effective solutions.

Trivest Technologies Limited   **March 2021 – Dec. 2021**
Engineering Intern   *Anthony, Lagos State*
- Designs, implements, and maintains computer networks, gaining hands-on experience with network configuration and troubleshooting.

PROJECTS

Invigilator Allocator System │ *Python, Django, Pandas, HTML/CSS, Bootstrap*   **July 2023**
- Efficiently assigns invigilators for exams, and automates matching invigilators with examination sites.
- Improves communication, reduces errors, and ensures fair distribution of invigilator assignments.

E-Practical Report & Tracking │ *PHP, Laravel MySQL, HTML/CSS, Bootstrap*   **Nov. 2023**
- Digitizes and streamlines practical activity assessment.
- Provides centralized platform for instructors to evaluate students' performance.
- Enables real-time tracking of students' progress, and efficient monitoring and analysis of practical outcomes.

Agent-based Coding Skill Assessor │ *Python, Django, AST module, Sub-process, HTML/CSS*   **Jan. 2024**
- Utilizes Abstract Syntax Tree (AST) module for analyzing code structures.
- Utilizes Sub-process module for code execution and assessment in isolated environments.
- Combines AST and Sub-process for robust coding skill evaluation, and insights into code quality, efficiency, and best practices adherence.

TECHNICAL SKILLS

Languages: Python, PHP, SQL, HTML/CSS, JavaScript, Numpy, Pandas
Developer Tools: VS Code, PyCharm, PHP Storm, Jupyter NoteBook, Google Colab, Postman, Anaconda, SSH
Technologies/Frameworks: Linux, Git, GitHub, Bash, Django, Laravel, Apache Server, FastAPI

VOLUNTEERING

Data Scientists Network   **Dec. 2022 – Dec. 2023**
AI/ML Student Ambassador   *Federal Polytechnic Ilaro*
- Manages the integration of AI/ML technologies into academic programs and research projects, fostering collaboration among faculty, researchers, and students.
